

Integration APIs

Release Notes

April 2024

Overview

As part of the Department's commitment to improving the ePlanning Digital Services on the NSW Planning Portal, we regularly deploy fixes where required and introduce minor enhancements to APIs to support policy changes. These deployments occur on a monthly schedule and are backward compatible, meaning that code changes are not required at the stakeholder end.

This month's release note captures all fixes and enhancements that have been deployed under each digital service API. Some items may require configuration changes on the part of the stakeholders – see table below.

Please note that this document is designed to support the technical staff responsible for the maintenance of stakeholder APIs. It ensures that the integration between the ePlanning Portal and stakeholder IT systems continues to improve.

If you have any questions about the below updates, please contact us at ePlanningAPI@planning.nsw.gov.au.

Online DA Service APIs

Please note, these APIs operate between NSW Planning Portal and Councils/CADNSW

Jira Ticket Ref	API version	Data flow	Operation	Description	Action(s)
ICA-95	DA V2	Council to ePlanning	Determination API	We are addressing the issue where applicants are unable to see final Notice of Determination (NOD) under the documents section for deferred commencement workflow (Deferred commencement, Operational Consent Requested, Operational Consent issued & Operational Consent declined statuses).	No Code changes required.

Integration APIs

Release Notes

April 2024

ICA-87	DA V2	Council to ePlanning	Determination API	While performing the determination operation, If any of the documents fail to attach among the multiple sent in the inbound, the rest should follow suit and not attach. In essence, either they all attach successfully or none of them do.	No Code changes required.
--------	-------	----------------------	-------------------	--	---------------------------

Online CR APIs

Please note, these APIs operate between Certifiers to NSW Planning Portal

Jira Ticket Ref	API version	Data flow	Operation	Description	Action(s)
INCAPI-2802	CR V1	Certifier to ePlanning	CreateCRCCase/UpdateCRCCase	<p>Following the "Machinery of Government", the organisation name 'Department of Planning and Environment' (DPE) is being changed to 'Department of Planning, Housing and Infrastructure' (DPHI).</p> <p>As part of this change, ePlanning is removing the exact match of consent declarations in CreateCRCCase and UpdateCRCCase operations.</p> <p>It is considered that by performing this operation, certifier is agreeing to all required consents irrespective of what is being shared in consentList for all required consents. Please refer the reference data API for the list of consents.</p>	No Code changes required.

Online BIC Service APIs

Please note, these APIs operate between NSW Planning Portal and Councils

Jira Ticket Ref	API version	Data flow	Operation	Description	Action(s)
INCAPI-3054	BIC V1	Council to ePlanning	AcceptReturn, Assessment Initiate Inspection, Perform Inspection, Complete Inspection, Determination, DeferDetermination, CloseDeferDetermination	'updatedByEmail' liberalization for Building Information Certificate API service for various inbound BIC operations are implemented. Currently actions on the case can be done only by case owner. This is being liberalised so that any valid user from the same organisation can progress the case without reassigning.	Councils using the BIC APIs are to review and consider adopting this enhancement when it is relevant to them.
