CHATSWOOD NSW 2067

DIGITAL ADVERTISING SIGNAGE – HELP STREET OVERPASS, CHATSWOOD

Application No.	DA10662
Location	Help Street, CHATSWOOD (Public road)
Applicant	Sydney Trains
Council Area	Willoughby
Consent Authority	Minister for Planning and Public Spaces

OBJECT TO THE PROPOSAL

This area is very congested, especially with traffic noise. Also the building “The Regency”, some of the apartments are facing these signage which will disturb sleeping patterns.

The concern is that these digital signs will increase over time and the noise volume has increase in Help Street.

I declare I have not made any political donations in the previous two years.
