This development is simply filling in the void in an already very crowded St Leonards precinct. No consideration has been given to potential traffic congestion with the additional traffic from the carpark in the building and service vehicles. We need clever road & traffic management and good town planning which is lacking in the St Leonards precinct. Stop short term vision building. We need smart long term town planning before stuffing St Leonards with high rises. No organs will live in a body if blood vessels are blocked!!
