Submission

We are concerned with the development as the the proposed development does not consider liveability, social cohesion, neighbourhood resilience, protection from shadowing and provision of public amenities. All new developments should have separation between buildings and have to include green space or a recreational precinct. The loss of sunlight, that will occur due to the proposed height (43 Storey) and size of this development is of major concern. The local area of this proposed development currently has major wind tunnelling issues. This proposed development takes no consideration of any of these issues.

I agree to the above statement

Yes
