

Title	Dr
First name	edward
Last name	crematy
Name Withheld	No
Suburb/Town Postcode	Strathfield
State	New South Wales
Do you have any Political Donations to report?	No
Please provide your view on the application	I object to it

On the Consultative Process:

Scheduling this squarely in the holiday period reflects poorly on the Department.

Whilst no doubt under pressure to expedite matters, simply extending the period to say 31 January, 2025 would reflect a greater appreciation of what our priorities are at this time of the year. In similar vein, one can only offer comment through the Department's portal. Here, email and letter options should also be available.

On the ACU's Proposal:

Submission

1. The ACU's proposal is a waste of the taxpayers' money. There are many other far more effective and truly beneficial ways in which the money could be used. Foremost amongst these would see the money go to the postgraduate training of inspiring school teachers in Mathematics, Physics and Chemistry.

2. Aimed at school students, transport to and from the ACU would invariably be undertaken during school holidays and week-ends – times that residents enjoy a respite from the numerous schools (and the ACU) around us.

It is at these very same times that we can park in front of our houses and have our streets cleaned.

Clearly, the challenge for the ACU will be to design student traffic flow to minimise disruption to residents' amenities.
