

Integration APIs

Release Notes

Feb 2025

Overview

As part of the Department's commitment to improving the ePlanning Digital Services on the NSW Planning Portal, we regularly deploy fixes where required and introduce minor enhancements to APIs to support policy changes. These deployments occur on a monthly schedule and are backward compatible, meaning that code changes are not required at the stakeholder end.

This month's release note captures all fixes and enhancements that have been deployed under each digital service API. Some items may require configuration changes on the part of the stakeholders – see table below.

Please note that this document is designed to support the technical staff responsible for the maintenance of stakeholder APIs. It ensures that the integration between the ePlanning Portal and stakeholder IT systems continues to improve.

If you have any questions about the below updates, please contact us at ePlanningAPI@planning.nsw.gov.au.

Online DA Service APIs

Please note, these APIs operate between NSW Planning Portal and Councils/CADNSW

Jira Ticket Ref	API version	Data Flow	Operations	Description	Action
ICA-341	DA V2	Council to ePlanning	Determine	The error message is updated to include the document type 'Review Letter' when the user submits an invalid document type for a review application.	No Action Required.
ICA-535	DA V2	ePlanning to Council	UpdateDA	In some occurrence, few API consumers have reported the duplicate documents in deltaDocuments section. The team has temporarily halted the purging of old events until a permanent fix is found. This will	No Action Required.

				prevent the recurrence of duplicates in deltaDocuments.	
--	--	--	--	---	--

Online Post-consent Certificate Service APIs

Please note, these APIs operate between NSW Planning Portal and IT systems of Certifiers (Private and Council)

Jira Ticket Ref	API version	Data flow	Operation	Description	Action(s)
ICA-561	PCC V1	External to ePlanning	AcceptReturn ReportFireSafetyIssue PerformInspection CompleteInspection Determine NotifyCriticalStageInspection	Previously, all digital services documents were required to start with a capital "D" for every payload, with the exception of PCC, which used a lowercase "d." Now it is been enabled to accept "D" as well in line with other services.	No Action Required.
ICA-573/ICA-588	PCC V1	Certifier to ePlanning	Determine	Determine API was throwing wrong validation on CDC Number as it is not required when it was created from CDC. Team has identified the issue and fixed it now.	No Action Required.

Online Concurrence and Referral Service APIs

Please note, these APIs only operate between NSW Planning Portal and IT systems of relevant State Agencies.

Jira Ticket Ref	API version	Data flow	Operation	Description	Action(s)
ICA-549	CNR V1	Agency to ePlanning	All inbound operations to ePlanning	CNR APIs are enabled to perform by any valid active user from the same organisation irrespective of the case is assigned to them or not.	No Action Required

Common APIs (Program-level enhancements that impact the common operations utilised by several service APIs)

Please note, these APIs operate between NSW Planning Portal and IT systems of Private Certifiers and the relevant Council.

There are two versions currently supported by the Department (Common V1 and Common V2), however, Common V1 is reserved for consolidating the administrative functions (e.g. Document exchange, Reassign and Withdraw) that were previously repeated across multiple digital services.

Integration APIs

Release Notes

Feb 2025

Jira Ticket Ref	API version	Data Flow	Operations	Description	Action
ICA-501	Common V2	External to ePlanning	CreateExhibition	A fix has been provided for the issue when sending a CreateExhibition request with a document containing "isPublishDoc: true" does not set the document to published in the Planning Portal.	No Action Required.
