

Submitting a 'Formal' CPCP Application to the Department of Planning and Environment (DPE).

The Cumberland Plain Conservation Plan (CPCP) facilitates growth in Western Sydney to 2056 and beyond and delivers important development and biodiversity outcomes.

Landholders wishing to request an amendment to certified urban capable land that affects their property under the CPCP must demonstrate how their proposal meets the 'modification' application criteria for the CPCP. Note properties must exceed 2 Hectares.

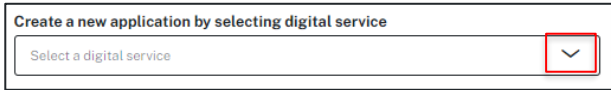

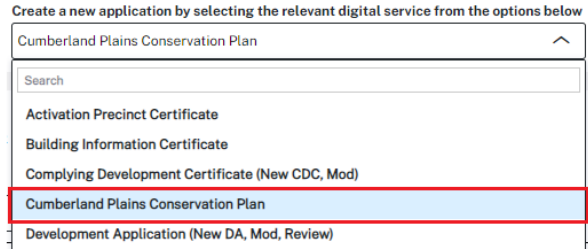

An Applicant can either lodge a 'Draft' application seeking Departmental advice or submit a full '**Formal**' request direct to the Department of Planning and Environment.

This quick reference guide (QRG) relates to an Applicant lodging a '**Formal**' submission.

For more details regarding the Cumberland Plan Conservation Plan (CPCP) please refer to the [CPCP modification - Information for applicants - \(nsw.gov.au\)](https://www.nsw.gov.au/cpcp-modification-information-for-applicants)

If lodging a draft request please refer to the relevant Quick Reference Guide (QRG)

Initiate application

<p>a. Using your Applicant account, log in to the NSW Planning Portal and from your Dashboard select a 'new' digital service from the 'Create new application by selecting a digital service' box by clicking on the arrow .</p>	
<p>b. Select the 'Cumberland Plain Conservation Plan' from the list of options.</p>	
<p>c. Click 'Create new'.</p>	

A new application form will open at 'Lodgement' stage with a Reference number e.g. **CPCP-74**

The status is '**In progress**' (Note the status '**In progress**' will remain until the application has been submitted).

Completing a 'formal' application

Before you start please ensure that you have read the [Application Criteria](#) and the [CPCP avoidance criteria](#) that relate to this Application. These Documents can be accessed by [hyperlinks](#) and are located just under the **Modification request form** heading at the top of the Application.

Note 1: all '**Mandatory**' fields are marked with a gold * asterisk and as such must be completed before the CPCP application can proceed to **Assessment** stage.

Note 2: An information symbol  next to a text field will provide you with further details.

The Application Lodgement contains 3 stages:

- The Modification request form
- Requirements and Uploads and
- Review and Submit

The current Lodgement status of the application will display at the top of the form as:

Requirements and Uploads – Stage 2

9. Required Documents

To support the Modification the applicant must upload **3** ‘compulsory’ documents.

- A Location Map
- A map of the proposed amendment
- Spatial data information of the proposed amendment

(Refer to the **CPCP** requirement documents for further information.)

To upload the documents from your computer to the NSW Planning Portal ‘Click’ the **Upload** button.

Requirements and uploads

Please upload files in one of the following file formats: PDF, Word, Excel, JPEG, PNG or ZIP. Please ensure the ZIP file does not include any executable (.exe or .osx) file types. The maximum file size is 300 MB.

The file name can be up to 150 characters long.

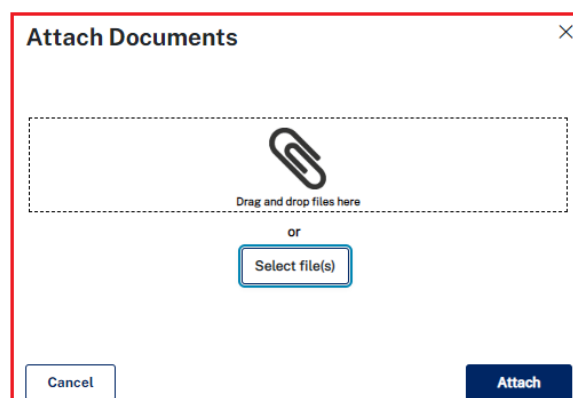

If you want to upload the same file in multiple categories, you will need to either name the files differently to complete a bulk upload or attach one document at a time.

If you need to amend any attachments please delete and upload a replacement document.

Upload

All uploaded files are scanned as a preventative measure, however we recommend you use appropriate and up-to-date antivirus software to protect your computer system.

10. The following ‘Attach Documents’ screen will appear

You can either ‘**Drag and drop**’ your documents / files into the rectangular box or alternatively ‘click’ on the ‘**Select files**’ button to search and select them from your computer.

Annexure A – CPCP Application Criteria

Application criteria (This is as of March 2023 and may not be up to date and is only a guide - please check)

Landholders wishing to be considered as part of a modification application will be required to demonstrate how their proposal meets the modification criteria.

The modification application criteria are:

1. An application must be for certified-urban capable land and avoided land within a nominated area (Greater Macarthur Growth Area, Wilton Growth Area, Western Sydney Aerotropolis or Greater Penrith-Eastern Creek). Applications for excluded land will not be considered as part of this process.
2. An application must not apply to Commonwealth owned land (as defined in the *Commonwealth Environment Protection and Biodiversity Conservation Act 1999*).
3. An application can be made where it can demonstrate the CPCP avoidance criteria are still achieved. These criteria were used to determine the CPCP's urban capable and avoided land footprints and underpin the plan's statutory approvals.
4. An application must not reduce the average minimum width of the koala corridors as outlined in the Office of the NSW Chief Scientist and Engineer koala advice.
5. An application must demonstrate that all alternative site designs that align with CPCP mapping have been exhausted.
6. An application should be associated with a planning proposal that aligns with precinct planning, local or site planning or a biodiversity stewardship agreement.
7. Amendments should be based on CPCP data available on [SEED](#) (NSW Government's central resource for Sharing and Enabling Environmental Data). It is not required or recommended to acquire additional ecological data.
8. If all other alternatives have been exhausted and the amendments are impacting native vegetation, applicants will be required to agree to secure additional biodiversity offsets within the CPCP's strategic conservation area or by paying into Biodiversity Conservation Trust, pending approval of the modification.

Annexure 2 – Notification email
