

How to declare As-Builts (final set)

Under the *Design and Building Practitioners Regulations 2021*, the building practitioner is required to complete a building compliance declaration prior to the application of an occupation certificate on the NSW Planning Portal (the portal).

The Building Compliance Declaration can be found on the Intent to Seek Occupation Certification (ITSOC) case and is part of the declare as-builts process.

The building practitioner should only complete the declaration if there are no further planned changes expected to the set of regulated designs in the document repository. The declare As-Built process and the Building Compliance Declaration can only be completed by the nominated registered building practitioner.

The building practitioner will be able to review the documents stored on the building work case before completing the declaration.

For subsequent occupation certificates, the building compliance declaration must be completed for each instance of the ITSOC case. This is to ensure the building compliance declaration accurately reflects which of the regulated designs and design compliance declaration in the document repository relate to which occupation certificate.

Complete a building compliance declaration

1. From the practitioner dashboard, **click** the unassigned tasks heading, then **click** the As-built declaration folder.

Note: The nominated building practitioner will only see the As-built declaration folder, if the issued for construction documents have been previously uploaded and lodged, and the Developer has submitted the Expected Completion Notice to NSW Fair Trading.

Previously accessed cases will be available on the active work tab.

2. **Click** on the ITSOC case reference number.

<p>13. Complete the checklist.</p>	<div style="border: 1px solid black; padding: 10px;"> <p><input type="checkbox"/> Select all</p> <p><input type="checkbox"/> Copy of each design compliance declaration given under section 9(3)(b) of the A</p> <p><input type="checkbox"/> Copy of each design compliance declaration obtained under section 20(3) of the</p> <p><input type="checkbox"/> Copy of the fire safety certificate obtained under section 85 of the Environment</p> </div>									
<p>14. Click submit.</p>	<div style="border: 1px solid black; padding: 5px; text-align: center;"> <p>Submit</p> </div>									

Once the As-Built declaration has been completed, the regulated designs will be tagged with As-built and the ITSOC case reference, to indicate which documents the declaration is made against.

The completed Building Compliance Declaration can be downloaded from the regulated designs tab as a PDF.
