

Instructions

This form should be used to lodge an application for State significant infrastructure (SSI) in accordance with Part 5 of the *Environmental Planning and Assessment Act 1979*.

Development can become SSI in two ways;

- **Declaration by State Environmental Planning Policy (SEPP).** A SEPP may declare any development, or any class of development, to be SSI, or
- **Declaration by Ministerial order.** Specified development on specified land may be declared SSI by the Minister making an order that amends a SEPP.

Note: The Minister may also declare any SSI to be Critical State significant Infrastructure (CSSI) if the Minister considers it is of a category that is essential to the State for economic, environmental or social reasons.

If your proposal is not identified in a SEPP, it is not SSI and you should not lodge an application for SSI.

A site map must be uploaded, showing an indicative layout of your proposal and the local and regional context.

A scoping report must also accompany your application for SSI.

Australian phone numbers and addresses are required when completing this form.
