Integration APIs
Release Notes

Dec 2022

Overview

As part of the Department's commitment to improving the ePlanning Digital Services on the NSW Planning Portal, we regularly deploy fixes where required and introduce minor enhancements to APIs to support policy changes. These deployments occur on a monthly schedule and are backward compatible, meaning that code changes are not required at the stakeholder end.

This month's release note captures all fixes and enhancements that have been deployed under each digital service API. Some items may require configuration changes on the part of the stakeholders – see table below.

Please note that this document is designed to support the technical staff responsible for the maintenance of stakeholder APIs. It ensures that the integration between the ePlanning Portal and stakeholder IT systems continues to improve.

If you have any questions about the below updates, please contact us at ePlanningAPI@planning.nsw.gov.au.

Online DA Service APIs

Please note, these APIs operate between NSW Planning Portal and Councils/CADNSW

Jira Ticket Ref	API version	Data flow	Operation	Description	Action(s)
INCAPI-2764	DA V1 & DA V2	Council to ePlanning	Reassign	APIs are corrected to send the correct error code: 400. Previously it was throwing 409 when invalid 'updatedByEmail' was supplied.	No action required

Online Certificate Registration APIs

Please note, these APIs operate between NSW Planning Portal and IT systems of Private Certifiers and the relevant Council.

Jira Ticket Ref	API version	Data flow	Operation	Description	Action(s)
INCAPI-2756	CR V1	Certifiers to ePlanning	UpdateCRCase	A new API operation is introduced to update the Certificate registration case. Updates can be performed on the cases until they are submitted to councils.	Certifiers using the CR V1 APIs are to review and consider adopting this enhancement when it is relevant to them.
INCAPI-2755	CR V1	Certifiers to ePlanning	CreateCRCase	CRCaseID attribute is removed from this operation as it becomes irrelevant for CreateCRCase.	No Action required.

Online Concurrence and Referral Service APIs

Please note, these APIs only operate between NSW Planning Portal and IT systems of relevant State Agencies.

Jira Ticket Ref	API version	Data flow	Operation	Description	Action(s)
INCAPI-2752	ePlanning to Essential Energy	-	-	Data fix to support Essential Energy agency to handle the failed cases.	This change applies Essential Energy agency only.

Common APIs (Program-level enhancements that impact the common operations utilised by several service APIs)
Please note, these APIs operate between NSW Planning Portal and IT systems of Private Certifiers and the relevant Council.
There are two versions currently supported by the Department (Common V1 and Common V2), however, Common V1 is reserved for consolidating the administrative functions (e.g. Document exchange, Reassign and Withdraw) that were previously repeated across multiple digital services.

Jira Ticket Ref	API version	Data flow	Operation	Description	Action(s)
INCAPI-1872	Reference data V1	External to ePlanning	ReferenceData	Reference data APIs are enabled for PCC certificates (All certificates).	Any external organisation requiring reference data information may consider using this service.
