

Integration APIs

Release Notes

March 2023

Overview

As part of the Department's commitment to improving the ePlanning Digital Services on the NSW Planning Portal, we regularly deploy fixes where required and introduce minor enhancements to APIs to support policy changes. These deployments occur on a monthly schedule and are backward compatible, meaning that code changes are not required at the stakeholder end.

This month's release note captures all fixes and enhancements that have been deployed under each digital service API. Some items may require configuration changes on the part of the stakeholders – see table below.

Please note that this document is designed to support the technical staff responsible for the maintenance of stakeholder APIs. It ensures that the integration between the ePlanning Portal and stakeholder IT systems continues to improve.

If you have any questions about the below updates, please contact us at ePlanningAPI@planning.nsw.gov.au.

Online DA Service APIs

Please note, these APIs operate between NSW Planning Portal and Councils/CADNSW

Jira Ticket Ref	API version	Data flow	Operation	Description	Action(s)
INCAPI-3026	DA V2	ePlanning to Council	UpdateDA	UpdateDA transactions will be triggered when edit is performed through either UI or EditDA API to make the council system in sync with DPE system.	No action required. Existing UpdateDA operation will support this functionality.
INCAPI-2703	DA V2	Council to ePlanning	Multiple inbound operations	Below listed operations are enabled to complete the transaction by any user from the same organisation through skipping the validation for the 'updatedByEmail' attribute.	No Action required.

Integration APIs

Release Notes

March 2023

				<p>Preliminary Assessment, Final Assessment, Determine, ReviewRequestConsent, PendingLEC decision, RequestAdditionalInfo, ProvideAddInfo, Withdraw, Reject, CreateExhibition, EditDA, UpdateExhibition API, CreateSubmission and Reassign.</p> <p>Moving forward, it is not necessary to perform reassign operation when the case is assigned to another user to process the case.</p>

Online Certificate Registration APIs

Please note, these APIs operate between NSW Planning Portal and IT systems of Private Certifiers and the relevant Council.

Jira Ticket Ref	API version	Data flow	Operation	Description	Action(s)
INCAPI-3017	CR V1	ePlanning To Certifier	CreateCR	<p>New attributes added in the CreateCR API inline with the ePlanning portal changes that allows the certifiers to submit CDC-CR modifications certificate registrations.</p> <p>Please refer the latest YAML for the attributes list.</p>	Certifiers using the CDC CR APIs are to review and consider adopting this enhancement when it is relevant to them.
INCAPI-2990	CR V1	Certifier To ePlanning	CreateCRCase & UpdateCRCase	<p>New attributes added in the CreateCR API inline with the ePlanning portal changes that allows the certifiers to submit CDC-CR modifications certificate registrations.</p>	Certifiers using the CDC CR APIs are to review and consider adopting this enhancement when it is relevant to them.
INCAPI-2886	CR V1	Certifier To ePlanning	CreateCRCase & UpdateCRCase	<p>CreatedByEmail/ updatedByEmail attribute is added in the CreateCRCase / UpdateCRCase API operation respectively.</p>	Certifiers using the CR APIs are to review and consider adopting this enhancement when it is relevant to them.

Integration APIs

Release Notes

March 2023

				For the certifiers that have adopted to the above changes, API will continue to work 'As is'.	
INCAPI-2606	CR V1	Certifier to ePlanning	CreateCRCCase	Fix has been provided for the below reported issue: 'Certificate registration form' is generated now while submitting a CR case through API.	No Action required.
INCAPI-2890	CR V1	Council to ePlanning	Decline & Register	Decline, register operations are enabled to complete the transaction by any user from the same organisation through skipping the validation for the 'updatedByEmail' attribute.	No Action required.

Online CDC Service APIs

Please note, these APIs operate between NSW Planning Portal and IT systems of Certifiers (Private and Council).

Jira Ticket Ref	API version	Data flow	Operation	Description	Action(s)
INCAPI-3001	CDC V1	Certifier To ePlanning	Determine	<p>In line with the ePlanning portal's change, additional attributes are added to the API to capture if the certifier belongs to NSW or interstate (Certifiers enabled through Automatic mutual recognition scheme to certify).</p> <p>For interstate certifiers, Registration state or territory, Interstate licence number and the AMR registration numbers are enabled to be captured through API.</p> <p>Please note: NSW state is enabled as the default selection for the Council and the private certifiers</p>	Certifiers using the CDC APIs are to review and consider adopting this enhancement when it is relevant to them.

Integration APIs

Release Notes

March 2023

				<p>For the certifiers that have not adopted to the above changes, API will continue to work 'As is'.</p> <p>Please refer the latest YAML for the attributes list.</p>	
--	--	--	--	---	--

Online Post-consent Certificate Service APIs

Please note, these APIs operate between NSW Planning Portal and IT systems of Certifiers (Private and Council)/CADNSW

Jira Ticket Ref	API version	Data flow	Operation	Description	Action(s)
INCAPI-3059	PCC V1	Certifier To ePlanning	Determine	<p>In line with the ePlanning portal's change, additional attributes are added to the API to capture if the certifier belongs to NSW or interstate (Certifiers enabled through Automatic mutual recognition scheme to certify). For interstate certifiers, Registration state or territory, Interstate licence number and the AMR registration numbers are enabled to be captured through API.</p> <p>The above changes are applicable for Construction certificate and Occupation certificate.</p> <p>Please note: NSW state is enabled as the default selection for the Council and the private certifiers.</p> <p>For the certifiers that have not adopted to the above changes, API will continue to work 'As is'. Please refer the latest YAML for the attributes list.</p>	Certifiers using the PCC APIs are to review and consider adopting this enhancement when it is relevant to them.

Integration APIs

Release Notes

March 2023

Online Concurrence and Referral Service APIs

Please note, these APIs only operate between NSW Planning Portal and IT systems of relevant State Agencies.

Jira Ticket Ref	API version	Data flow	Operation	Description	Action(s)
INCAPI-2634	CNR V1	Council to Agency	CNR Cancel	CNR defect is fixed to show the cancellation reason and cancellation date in the payload in a scenario where the case was in draft (not submitted) and inactive for 21 days.	No Action required.

Common APIs (Program-level enhancements that impact the common operations utilised by several service APIs)

Please note, these APIs operate between NSW Planning Portal and IT systems of Private Certifiers and the relevant Council.

There are two versions currently supported by the Department (Common V1 and Common V2), however, Common V1 is reserved for consolidating the administrative functions (e.g. Document exchange, Reassign and Withdraw) that were previously repeated across multiple digital services.

Jira Ticket Ref	API version	Data flow	Operation	Description	Action(s)
INCAPI-2684	Common	Council to ePlanning	GetcaseinfoSync	GetCaseInfoSync is enabled for BIC and Section 68 applications.	Councils using the BIC/S68 APIs are to review and consider adopting this enhancement when it is relevant to them.
INCAPI-3033	Common	ePlanning to Council	Reassign	Upon customer's request, we have restricted the outbound Reassign API transaction that gets triggered when the users are reassigning the case through APIs, as the request is triggered from the council system. DA V2, PCC V1, CDC V1, CR V1. Changes to the rest of the services are planned for the subsequent releases.	No Action required.
