

Entire site identified by C&R
as Potential Offset Area

Legend

- Investigation site boundary (source: LPI)
- Watercourse (source: LPI)
- Electricity Transmission Line
- Contour 1m (source: LiDAR)
- Slope 18-20 degrees
- Slope exceeding 20 degrees
- Firetrails
- Site inspection required to confirm extent of managed land
- Endangered ecological community (EEC)
- Potential biodiversity offset area
